## POLARIS GROUP COMPANY PROFILE

Welcome To  
**POLARIS GROUP**

[www.polarisgroup.ae](http://www.polarisgroup.ae)

### About Us

Welcome to Polaris Group the home of quality and excellence. Since our inception in 2007, we have evolved into a trusted and reliable company by creating solid relationships working with our clients, suppliers and contractors.

We at Polaris are known for the quality of the products and services and for its attention to safety. We are determined to maintain our high standards through continuous improvement of procedures and processes.

Thanks to our dedicated staff and they have built a solid reputation for the exceptional eye to detail, unrivaled customer satisfaction and flexible scheduling.

### Who we are ?

Polaris group is a principal civil and marine contractor in the middle east and we value our fervent commitment to quality, integrity and specialized services. These principles are the cornerstone of what we are and how we work on completing each project every day.

### OUR PROMISE

- ◇ Excellent communication throughout the project
- ◇ Accurate timelines for build completion
- ◇ Professional staff with highest code of conduct
- ◇ High quality & Safety standards
- ◇ On Time and On Budget
- ◇ Real Focus on Customer Satisfaction

# We Build Your Dream!

We as Polaris Group achieve constant success in differentiating ourselves from the competition through independence, a long-standing reputation for highest quality work and a flexible approach to all our business ventures. Dedicated leaders in the company are directly responsible for client contact ensuring smooth project execution. We offer employees opportunities for growth and career development in diverse fields.

### Our Mission

To provide high quality training for professionals concentrating on Customer satisfaction  
All our efforts are focused on providing the highest quality of services.

### Our Vision

To become a successful global civil and marine contracting leader along with delivering qualitative and effective training programs without compromising on creativity and quality.

### Our Goal

We aim to become a safe workplace by adopting safety methods and ground-breaking safety tools. We train top notch graduates to become knowledgeable marine construction detailers with great insights.

### Our Dedication

The safety and wellness of every employee is our top priority. We also look for maintaining a healthy balance between safety and production by not compromising on their personal safety at the work place.

### Corporate Responsibility

In today's world, it is an important responsibility for each conscious individual as well as each private enterprise to increase the quality of life in our society, ensure sustainability and protect natural resources. We aim to minimize negative environmental effects that may source from our line of business, the majority focus on the protection of Marine environment.

## POLARIS GROUP COMPANY PROFILE

### Our Core POLICIES

#### Polaris Group Executives

Over the past all years, each and every employee has contributed to the organization's success imparting their extensive knowledge on various projects. Working as a successful team, our shared experience has helped us achieve great success in our work.

#### Team Leaders

Our experienced leaders have contributed immensely on various marine and civil projects. They bring their perfect niche skillset to achieve organizational goals and help our company achieve greater heights.

## HSE Policy

HEALTH  
SAFETY  
ENVIRONMENT

Polaris Group is committed to providing the best quality services, endeavors to protect the environment and to ensure the health and safety of its employees and customers and work for continual improvements in health, safety, and environment system.

#### Health & Environment

Polaris Group seeks to conduct its activities in such a way as to promote the health of and avoid harm to its employees, visitors and the community.

Polaris Group is committed to preventing pollution by the efficient use of energy throughout its operations, techniques that lead to a preventive approach for sustainable development.

#### Safety

Polaris Group believes that practically all accidents are preventable by carrying out risk assessments, and reducing risks identified by appropriate controls. It also ensures that every employee or contractor workers under the safest possible conditions. It is our firm belief that every effort must be made to avoid accidents, injury to people, damage to property and the environment.

#### Quality Policy

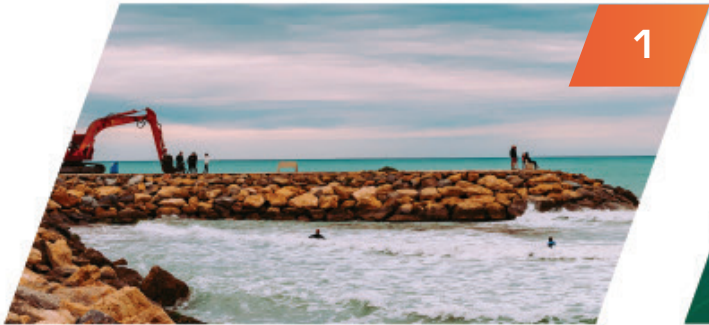

Polaris Group aims to offer high-quality services for its construction projects with the assurance on service quality, on-time delivery of projects to the satisfaction of the customers. Polaris Group endeavors to provide value to the customer thorough their services. We committed to continual improvement in quality and productivity,evidenced by the following requirement of:

**ISO 9001:2008,ISO14001:2004** and  
**OHSAS 18001:2007** done by

- ◇ Involving staff at all levels in a constant search to recognize the importance of the environments and improvements towards enhancing productivity.
- ◇ Reducing waste in all form, attaining a higher quality of products and services.
- ◇ Providing staff with internal training techniques and authority to work closely with the client and comply with their environmental rules, regulations, and specifications they needed to identify and improve the progress and resolve problems.
- ◇ Setting high-performance standards and measuring results to implement and upgrade its environmental procedure.

## BREAKWATERS & SHORE PROTECTION WORKS

At Polaris, our expertise is in managing and delivering shore projection projects. We have extensive experience, knowledge and equipment to implement the project from design to commissioning, and also the ability to prepare the site for placement effectively and efficiently

We work meticulously and diligently to offer trouble free installation and with our own fleet of equipment are able to transport appropriate materials. Our well seasoned team handles turnkey projects without any setbacks.

### Our construction work includes

- ◇ Breakwaters
- ◇ Rock Revetment
- ◇ Rock Pitching
- ◇ Backfilling Works
- ◇ Rock Removal and Reinstallation Works

SERVICE #2

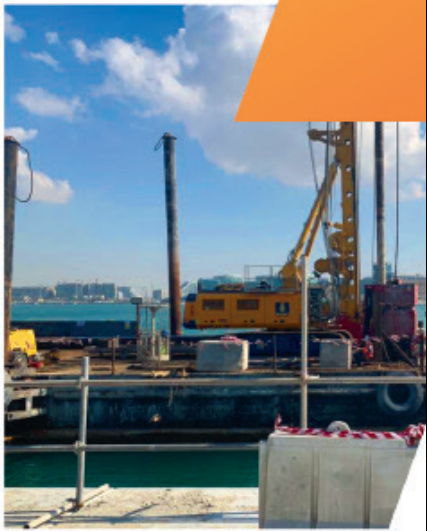

## POLARIS GROUP COMPANY PROFILE

### MARINE PILING WORKS

Polaris operates all over the gulf regions. We can complete, design, install, test or extract different types of steel piles including tubular and sheet piles.

Our construction experience offers successful completion of a number of diverse projects such as steel sheet pile wall, tubular pile jetties, bridges, fender system, dolphins and various repairs to all type of waterfront structures.

We have establishing pile foundations utilizing a various combination of materials and temporary steel sheet piles cofferdams. We have gained a considerable amount of experience in difficult and carious site conditions ranging from oceanfront to marsh to industrial setting to waterways and more.

#### Services included

- ◇ Permanent and temporary Sheet Pile installation, repair and maintenance work
- ◇ Permanent and temporary Tubular Pile installation, repair and maintenance work
- ◇ Sheet piles and tubular piles extracting work
- ◇ Painting and protection work
- ◇ Cathodic protection work
- ◇ Piles supply and delivery work

**SERVICE #3**

## POLARIS GROUP COMPANY PROFILE

### ONSHORE & OFFSHORE PIPELINE & CABLE LINE INSTALLATION WORKS

Polaris Group has significant experience in offshore and onshore pipeline and cable line installations. We assist in design, construction, and repairing of water intakes, outfalls, pipelines and channel crossings in all imaginable environments. Our knowledge and experience include supply, installation, repair and trenching for the pipeline with different materials

We have gained excellent GCC experience in all types of offshore and subsea construction projects. We offer hand held support to the client in conceptualizing and designing its services for estimation, project management, engineering, and procurement up to and including installation and commissioning. We do not restrict ourselves to available technology; we develop new techniques and applications wherever necessary.

#### Services includes

- ◇ Onshore and offshore pipeline supply, delivery and installation
- ◇ Pumping Stations and Water Treatment Plants
- ◇ Potable Water Networks, Reservoirs, and Pumping Stations
- ◇ Sewage treatment, outfall and intake station installation, repair and cleaning
- ◇ Seawater Intake and Outfall Pipeline Construction
- ◇ Submarine Pipe laying, trenching backfilling works
- ◇ Underwater cable line installation works

SERVICE #4

## POLARIS GROUP COMPANY PROFILE

### BEACH CONSTRUCTION & MAINTENANCE WORKS

POLARIS OCEAN Ports and Marine Construction offers variety and comprehensive range of marine services to the onshore, offshore and marine industries. The company has built up an impressive list of clients in the Gulf region.

As an independent company, we can offer impartial worth on all phases of your requirements in the above industries and recommend equipment from a wide range of manufacturers. We assembled a team of specialist staff with many years of experience. We catering your entire requirement with our best team who are fully conversant with the technical and operational skills required.

As the gulf population requires more and more properties and hotels near the coastline; less and less seafront is available and the detritions of the existing business. We as Polaris had engineered different divisions to solve the problems and repair the beaches and stop the detritions of another coastline. As professional we carry the extensive study of waves and current depth and design and solve the problem in the construction stage of the work.

## SAND TUBE & SAND BAGS PROTECTION WORKS

A woven Geotextile produced from weaving together High Strength Polypropylene Multifilament yarn, branded as TechnoGeo, capable of withstanding construction installation stresses. TechnoGeo are fabrics used to enhance the performance and reduce the cost of civil engineering projects. They are designed to filter soil particles from drainages system, and increase the performance life by stabilizing structure.

Geotextile Tube -TechoTubes, are large structures fabricated from high strength woven geotextile with soil-in-fills. Geotextile tube is formed in situ by the hydraulic pumping of local soil into the prefabricated geotextile tube. This leads to a flexible, monolithic, continuous structure that is highly resistant to water currents. Sand is widely used as the soil in-fill material because of its low compressibility but other hydraulically pumped soil types can be used. Geotextile tubes are normally characterized in terms of theoretical diameter.

A TechnoBag, Geotextile bag produced from stitching of high strength woven geotextile fabric. These bags are sand-filled high-strength geotextile bags available in the various sizes and are used in riverbank, beach protection and offshore breakwater.

### Solutions we work on

- ◇ Woven and Nonwoven Geotextile
- ◇ Geotextile Bag
- ◇ Geotextile Tube
- ◇ Polyester Woven Geotextile
- ◇ Geotextile Container

**SERVICE #6**

## POLARIS GROUP COMPANY PROFILE

### DREDGING, EXCAVATION, RECLAMATION & DISPOSAL

Polaris Group serves from small to medium scale dredging works with maximum water depth up to 11m from the water surface and disposing dredged materials within a range of 2km from the point of dredging. We operate the dredging works by excavator barges and cutter suction dredgers.

Polaris Group has been involved in creating and completion of some of the most complex and challenging development projects in the realms of dredging and marine construction. We also, provide navigational dredging services for marinas and canals. Our operation also involves complete disposal works as per the client needs.

We have competent, skilled and committed staff along with high standard appropriate machineries and technologies, combined with vast experience in Dredging & Reclamation, Port and Harbor activities.

#### Activities includes

- ◇ Dredging and reclamation works
- ◇ General Excavation works
- ◇ Dredged and excavated Material disposal
- ◇ Sand Material pumping works
- ◇ Airlifting and seabed cleaning works

SERVICE #7

## POLARIS GROUP COMPANY PROFILE

### FLOATING PONTOON SUPPLY, DELIVERY & INSTALLATION

Polaris Group has extensive experience in designing, rehabilitating, expanding and completely creating docks, harbors, breakwaters and marinas of all sizes. We specialize in working together with our client as a team to produce professional and safe working facilities.

Whether commercial or residential, the Polaris Group is committed to quality across the board. We have technicians with rich construction experience and innovative design team.

High-quality management and technical backbone, a full set of advanced processing and testing facilities. Our seasoned team of professionals will give each project a fresh perspective, utilizing proven engineering; the latest technology and equipment; to develop and create an innovative solution that exceeds our customer needs. We focus on quality, technology, reputation, and the best quality production while thinking of cost reduction and on-time delivery.

#### Services include

- ◇ Fiber Reinforced Concrete (FRC) Pontoon
- ◇ Fiber Reinforced Polymer (FRP) Pontoon
- ◇ Aluminum Pontoon
- ◇ Watersport Pontoon
- ◇ Heavy-Duty & Commercial Pontoon
- ◇ Steel Pontoon
- ◇ Boardwalks
- ◇ Wood Plastic Composite (WPC)
- ◇ Gangways
- ◇ Floating Breakwaters
- ◇ Marina Equipment and accessories
- ◇ Marina Maintenance
- ◇ Pontoon Hire

**SERVICE #8**

## POLARIS GROUP COMPANY PROFILE

### JETTY CONSTRUCTION & PORT FACILITIES

Polaris group is one of the largest groups with an extensive marine environmental background. We have participated in the construction of several excellent projects for ports and jetties the past few years.

We incorporate new technologies, methodologies year by year in order to meet up to market conditions and requirements. In a current business scenario, our primary focus is in port and vessel repairing and construction area. As an independent private company with a solid foundation, we are always happy to address the needs of the clients.

#### Services include

- ◇ Boat Slipway
- ◇ Landing Craft
- ◇ Precast Quay wall
- ◇ Diaphragm Wall
- ◇ Retaining Wall
- ◇ Concrete Jetty

SERVICE #9

## POLARIS GROUP COMPANY PROFILE

### PORTS & JETTY ACCESSORIES SUPPLY & INSTALLATION WORKS

Polaris Group offers the supply of products and installation works at economical competitive pricing and we seek utmost care in timely delivery and product range quality at all times  
We are expanding our reach worldwide at a fast rate and our well qualified team of trained professional is always at your service to attend to all the client's steel requirements.

Our export department is highly specialized in areas of documentation, packing and shipping formalities from all regions and they ensure reliable and prompt service at all times.  
Polaris group meets all the requirements in a timely manner and offer various services in port handling equipment to the marine industry including supply, installation and maintenance

#### We offer services such as

- ◇ Dispensers
  - ◇ Bollards, cleats and Ladders
  - ◇ Fenders
  - ◇ Pedestals
  - ◇ Lighting System
  - ◇ Deck protection
  - ◇ Handrails
  - ◇ Jetty repair and maintenance.
- 

SERVICE #10

## POLARIS GROUP COMPANY PROFILE

### DIVERS SUPPLY & UNDERWATER DIVING WORKS

Polaris Group has a wide range of experience in underwater operations and maritime services and also are specialized in diving operations. We have successfully worked on difficult projects of various state and federal government agencies, power plants, construction companies, engineering facilities, municipalities and the private sector for many years. We also offer commercial diving and underwater civil and offshore works in all the conditions.

Our exceptional work and safety standards have earned a considerable reputation ubiquitously in the country. Moreover, we also design, develop and construct surface and sub-surface equipment for maritime sensors, video imaging, and seabed sampling.

#### We offer these services

- ◇ Underwater cutting, welding and repair works
- ◇ Underwater painting and concreting
- ◇ Underwater photography and video
- ◇ Vessels & barge survey inspections, cleaning, and repair
- ◇ Underwater facilities installation, repair and maintenance
- ◇ Seabed Survey
- ◇ Divers Hiring

## NAVIGATIONAL AIDS

Polaris Group administers the supply, installation, and maintenance services for navigational aids, for the sea and the protection of the marine environment.

Our products are approved from International Association of Marine Aids to Navigation and Lighthouse Authorities (IALA) and our services also include supply, installation and maintenance of the below services.

- ◇ Swimming line
- ◇ Barrier system
- ◇ Oil boom
- ◇ Silt Curtain
- ◇ Marker and navigation buoys
- ◇ Solar marine lights
- ◇ Floating structures warning signs
- ◇ Marine Light pole

SERVICE #12

## POLARIS GROUP COMPANY PROFILE

### CIVIL, LANDSCAPING, MEP & GENERAL MAINTENANCE WORKS

Polaris Group continues to provide integrated design, engineering, procurement, construction, and project management services for the civil construction areas including, energy, infrastructure and petrochemical sectors.

Polaris Group's key strengths are its varied experience, rich knowledge of local conditions, high standards of health, safety, quality and environment, accolades and recognitions from industry bodies and clients and their ability to manage operations in diverse industries and economics, long-term relationships with world-class clients and ability to mobilize financial resources.

#### Areas covered in our construction

- ◇ Repair, Maintenance of commercial, industrial and residential building and facilities.
- ◇ MEP works
- ◇ Architectural and interior decoration works
- ◇ Asphalt, interlock and kerbstone works
- ◇ Erection of steel structures.
- ◇ Concrete foundation and general concrete works
- ◇ Landscaping works including design and built
- ◇ Irrigation works
